SEAEYE PANTHER XT PLUS

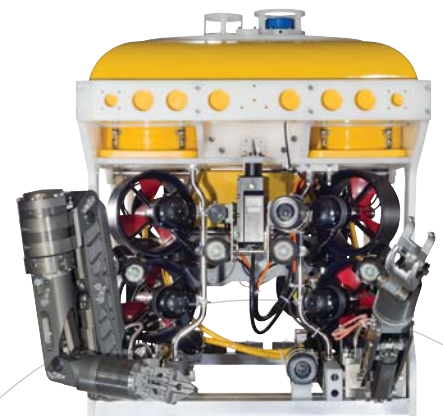

HIGH PERFORMANCE, LIGHT WORK ROV

THE SEAEYE PANTHER-XT PLUS has been developed as a high performance version of the proven and versatile Panther-XT.

It has double the horizontal thrust and an increased payload to carry a wider range of tooling, including Schilling Orion manipulators.

- Operational depth of 1000 msw
- 150 kg payload
- Exceptional thrust and speed
- Schilling Orion 7P and 4R manipulators
- Greater redundancy from additional thrusters
- Full range of handling systems and accessories

SAAB SEAEYE'S HIGH PERFORMANCE,
LIGHT WORK ROV

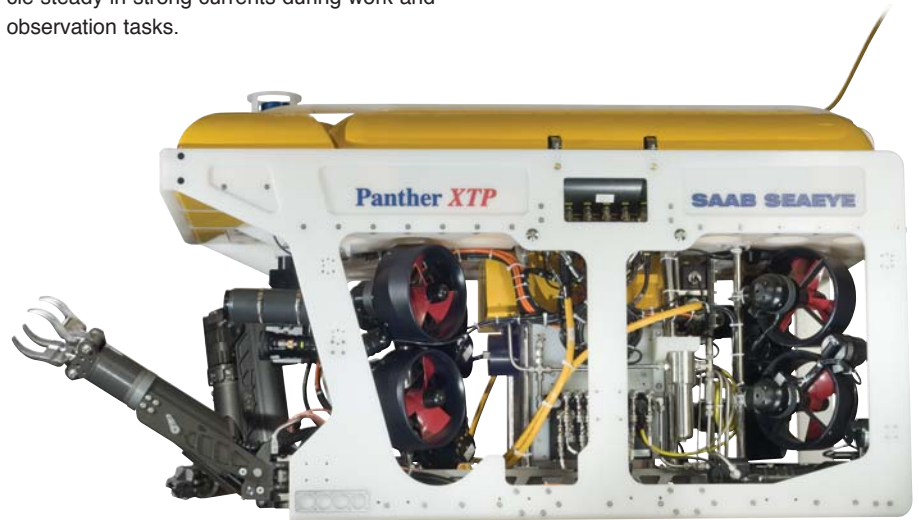

SEAEYE PANTHER-XT PLUS

The high performance Panther-XT Plus combines the capability of precision manipulative tasks with operation in high currents, whilst maintaining a very compact package and footprint.

With a new design of front end and enhanced tooling capability, the Panther-XT Plus can be fitted with Schilling Orion manipulators and boasts a power to weight ratio of more than twice that of its competitors.

The Panther-XT Plus is probably the fastest swimming light work ROV in the world. At four knots, it stands apart from other work ROVs. Its ten powerful SM7 thrusters not only power the ROV along, but hold the vehicle steady in strong currents during work and observation tasks.

This latest version of the very successful Panther series gives ROV operators a vehicle unrivalled for handling a wide range of work tasks in a compact light-weight package.

SAAB SEAEYE'S HIGH PERFORMANCE, LIGHT WORK ROV

SEAEYE PANTHER-XT PLUS

SPECIFICATIONS	
Depth rating*	1000 msw
Length	2140 mm
Height	1217 mm
Width	1060 mm
Launch weight	800 kg
Forward speed*	4 knots
Thrust forward	353 kgf
Thrust lateral	248 kgf
Thrust vertical	105 kgf
Payload	150 kg

* Performance figures above are based on 1050m of main lift and 200m of tether. Increased performance is possible with shorter cable lengths.
